Forecast for Tuesday 13 Apr 2021

Weather: Fine and dry with variable amounts of cloud, and feeling warm in sunshine. By lunchtime some showers will develop across the region, perhaps snow across very highest mountain tops. Dry by the evening with further clear spells overnight.

Chance of cloud free mountain/hill tops above 800m: 60% becoming 90% by mid-afternoon.

Visibility: Visibilities will be good, becoming very good throughout the day as cloud bases lift from 600m to above 900m by mid-afternoon. In and around showers cloud bases may drop to 800m temporarily deteriorating visibility through the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Despite some moderately strong sunshine, with sun protection recommended, and light winds, it will still feel quite cold. The odd shower could potentially fall as sleet or snow across the very highest tops.

Forecast for Wednesday 14 Apr 2021

Weather: A cold start with some fog patches in valleys, though these will clear quickly through the morning. Then, a bright day with sunny spells. In the afternoon skies will likely become cloudier with the odd isolated shower developing. Further clear spells expected by the evening and overnight.

Maximum wind: Northeasterly 10mph gusts of 15mph.

Chance of cloud free mountain/hill tops above 800m: 100% becoming 80% by lunchtime.

Visibility: Visibility will mostly be very good through the day, though it will be poor in any fog to start. Some temporary deteriorations likely in the afternoon in and around showers as cloud obscured hills above 700m.

Temperature: **Valleys:** Plus 3 Celsius becoming Plus 9 Celsius.
At 800m: Minus 1 Celsius becoming Plus 2 Celsius.
Freezing level: 1000m
